DRINKS LIST	
Beer, spirits, soft drinks, tea and coffee delights	21

'My glass was filled with a light red wine poured from a pitcher, left on the table. I was relaxed, carefree and happy. Oh, how ruby bright that wine was; it gleamed in the sunlight. I remember clearly its enticing aroma – youthful but with a refinement that surprised me. The wine was sweetly exotic: lively on my tongue, perfectly balanced, and with a long glossy finish. It was the sort of wine that Omar Khayyam might have in mind for his desert tryst. The young woman who had poured it for me was amused when I asked what it was. It was, she said, vino rosso.'

INTRO

what's new pussy cat?

A new format for our list conceived in January but finished in July! The previous versions won numerous awards and recognition for which we're very proud. But like all good things, it must come to an end and thus, a reinvention for the second half 2020. The layout proposes to steer you from your comfort zone to similar but exciting alternatives and to show different versions of what's popular.

Our list is lovingly put together after considered whittling down of numerous samples tasted and slurped from around the world. We seek wine of distinct flavour, of its place and made with respect for the vine as well as the environment. We want to be excited by what we taste, discover nuances and subtleties rather than be whacked around the chops by fruit bombs or oak. We want you to continually swirl and sniff the liquid intriguingly. We hope you get as much enjoyment from these wines as we do.

One of our main suppliers, Les Caves de Pyrene, has garnered a reputation for wines of Southwest France and Italy and more recently as natural wine pushers! Our second main supplier, Alliance Wine, have a beguiling ability to find the most interesting, best value and downright moreish wines I've come across from Spain, Argentina and Australia. I am indebted to these two (and all our suppliers) for their support in lockdown as well as in unlocking by providing the means for an expensive wine preservation system so we can offer more by the glass.

Our wine by the glass and carafe come by either 125ml glass or 375ml carafe. This gives you an opportunity to experiment through the list as we will change the 'by the glass' section every month. The carafe of 375ml is an ideal size for just two people but also is a good way of having a white and a red with your meal if there are just two of you.

All our wines are available to drink in the comfort of your own home, please head to our online shop should you wish to place an order.

Each week we open a random bottle not normally available by the glass, to give you a chance to sample something different. Please ask if not offered.

If you want anything decanted, we can do that too. And give you precious Zalto DENK'ART stemware to drink from.

Salute!

Piers Baker
